N.B

Q.1 Describe fungal disease in fishes. 20

OR

Given an account nutritional diseases in fishes

Q.2 Describe protozoan diseases in fishes. 20

OR

Write a short notes

1. Argulus
2. Liver fluke
3. White spot
4. Dactylogrus
5. Inflammation
6. Furunculosis

Q.3 1. Dysentery is caused by \_\_\_\_\_ 10

- |  |                       |
|--|-----------------------|
| a. Eating food containing excess sugar | b. Protozoan parasite |
| c. Protozoan parasite                  | d. Mall nutrition     |

2. Which one of these are not protozoan parasites \_\_\_\_\_

- |             |                |
|-------------|----------------|
| a. Castia   | b. Diplo zoan  |
| c. Chilodon | d. Liver fluke |

3. In tape worm, propagation from host to host is accomplished by \_\_\_\_\_

- |                            |                      |
|----------------------------|----------------------|
| a. Active transfer         | b. Positive transfer |
| c. Both active and passive | d. Hyperasitism      |

4. White spot diseases is caused by

- |             |                       |
|-------------|-----------------------|
| a. Castia   | b. Argulus            |
| c. Bacteria | d. Ichthyophthiriasis |

5. Furunculosis disease is caused by

- a. Virus  
c. Fun
- b. Bacteria  
d. Worm
6. Immunity is \_\_\_\_\_  
a. Development recent science  
c. Result of thromboplastin
- b. A line of defense
