

Time: One Hour

Max. Marks: 25

Instructions

Solve any 25 questions from Q.1 to Q.30

- 1 Basic combined programming language is developed in.....

(A)1976	(B)1967	(C)1957	(D)1977
---------	---------	---------	---------
- 2 The print statement contains.....arguments.

(A)One	(B)Two	(C)Three	(D)Four
--------	--------	----------	---------
- 3 A #define is acompiler.

(A)Statement	(B)Processor	(C)Preprocessor	(D)Preprocedure
--------------	--------------	-----------------	-----------------
- 4 C- program hastypes of tokens.

(A)Three	(B)Four	(C)Five	(D)Six
----------	---------	---------	--------
- 5 string constant is a sequence of characters enclosed in.....

(A)Single quotes	(B)Double quotes	(C)Exclamatory mark	(D)Brackets
------------------	------------------	---------------------	-------------
- 6 #define statements do not end with.....

(A)Colon	(B)Semicolon	(C)Full stop	(D)None of these
----------	--------------	--------------	------------------
- 7 The complement of relational operator != is.....

(A)= =	(B)&=	(C)&&	(D)=&
--------	-------	-------	-------
- 8 The following are the arithmetic operators.....

(A)#, &, +	(B)+, -, *	(C)+, -, #	(D)*, #, -
------------	------------	------------	------------
- 9 The general format of scanf is.....

(A)scanf("control string",&variable1,&variable2,...);	(B)scanf("control string",&variable1,&variable2,...)	(C)scan("control string",&variable1,&variable2,...);	(D)scanf("control string",&variable1,&variable2);
---	--	--	---
- 10 The operator ++ adds to the operand.

(A)1	(B)2	(C)3	(D)4
------	------	------	------
- 11 The UNIX operating system was coded in

(A)C language	(B)Python	(C)Java	(D)Basic
---------------	-----------	---------	----------
- 12 The size of operator is used to determine the length of

(A)Strings	(B)Arrays	(C)Loops	(D)None of these
------------	-----------	----------	------------------
- 13 The control string is also called as.....

(A)Format string	(B)Formal String	(C)Form string	(D)From string
------------------	------------------	----------------	----------------
- 14 The ld specification is used to print Integers.

(A)Short	(B)Very short	(C)Long	(D)Very long
----------	---------------	---------	--------------
- 15 The character functions are contained in the file.....

(A)(ctype.h)	(B)type.h	(C)(ctype.f)	(D)ctype.f
--------------	-----------	--------------	------------
- 16 is used to read strings with blank spaces.

(A)[]	(B)()	(C)%[]	(D)%()
--------	--------	---------	---------
- 17 Which of the following rule is used to evaluate arithmetic expressions from left to right?

(A)Rule of decedence	(B)Rule of arithmetic	(C)Rule of precedence	(D)None of these
----------------------	-----------------------	-----------------------	------------------
- 18 White space is not allowed in.....

(A)Functions	(B)Arrays	(C)Data types	(D)Variables
--------------	-----------	---------------	--------------
- 19 Every C word is classified as.....

(A)Keyword	(B)Identifier	(C)Either (a) or (b)	(D)None of these
------------	---------------	----------------------	------------------
- 20 '\t' means.....

(A)Tab	(B)Horizontal tab	(C)Vertical tab	(D)Table
--------	-------------------	-----------------	----------
- 21 The math.h header file contains.....

(A)Mathematical functions	(B)Mathematical variables	(C)Functions	(D)Variables
---------------------------	---------------------------	--------------	--------------
- 22 is a main part of every C program.

(A)main()	(B)int main ()	(C)void main ()	(D)All of these
------------	-----------------	------------------	-----------------
- 23 The variables used in more than one function are called as

(A)Local variables	(B)Global variables	(C)General variables	(D)None of these
--------------------	---------------------	----------------------	------------------
- 24 The print line ends with a

(A)Colon	(B)Bracket	(C)Semicolon	(D)None of these
----------	------------	--------------	------------------
- 25 The words int and float are called

(A)Variables	(B)Functions	(C)Keywords	(D)All of these
--------------	--------------	-------------	-----------------
- 26 Enumerated data type is defined as.....

Examination October 2020

- (A)enumr identifier{value1,value2, ...,value n} (B)enum identifier{value1,value2, ...,value n} (C)enum identifier{value1,value2,...} (D)enum{value1,value2,...,value n}
- 27 Every trigraph sequence consists of three.....
- (A)Variables (B)Functions (C)Constants (D)Characters
- 28 Integer constant refers to sequence of
- (A)Digits (B)Characters (C)Variables (D)All of these
- 29 Logical operator && means
- (A)AND (B)OR (C)Logical AND (D)Logical OR
- 30 Single character can be read by the function
- (A)getchar (B)scanf (C)Both (a) and (b) (D)None of these
