SUBJECT: ECONOMICS

Effective from 2024-25

PREFACE

As we stand on the threshold of a new era in education, the dawn of the National Education Policy 2020 illuminates our path toward a holistic, inclusive, and progressive educational landscape. The Bachelor of Arts in Economics (B.A. Hons with Research Degree Programme) curriculum outlined herein reflects the ethos and aspirations of this transformative policy, aiming to equip learners with the knowledge, skills, and Economics values necessary to thrive in the dynamic world of the 21st century.

At its core, the National Education Policy 2020 envisions an educational framework that is learner-centric, multidisciplinary, and geared towards fostering creativity, critical thinking, and innovation. It emphasizes the integration of knowledge across disciplines, breaking down traditional silos to encourage holistic understanding and application of concepts. The Bachelor of Arts in Economics ((B.A. Hons with Research Degree Programme) curriculum embodies these principles by offering a diverse array of courses spanning various Economics discipline, while also incorporating interdisciplinary studies to nurture well-rounded graduates capable of addressing complex challenges with agility and insight.

Furthermore, the curriculum is designed to promote experiential learning, research, and hands-on exploration, recognizing the importance of social engagement in deepening understanding and cultivating real-world skills. Through Community engagement, field experiences, internships, and project-based learning opportunities, students will have the chance to apply theoretical knowledge in real life, develop problem-solving abilities, and cultivate a spirit of Research and Development. Moreover, Industry-Academia Linkage through, Internship/Apprenticeships have an enormous potential to combine work based learning with theoretical knowledge of economics subject.

Integral to the National Education Policy 2020 is the commitment to inclusivity, equity, and access to quality education for all. The Bachelor of Arts in Economics ((B.A. Hons with Research Degree Programme) curriculum reflects this commitment by embracing diversity in perspectives, backgrounds, and experiences, and by fostering an inclusive growth of economics where every student feels economic valued, supported, and empowered to succeed.

Moreover, the curriculum emphasizes the cultivation of ethical values and social responsibility, instilling in students a sense of accountability towards society and the environment. By integrating courses on ethics, sustainability, and social sciences, the Bachelor of Arts in Economics (B.A.) program aims to produce graduates who are not only proficient in their respective fields but also to promote entrepreneur who make positive impact on the world.

As we embark on this journey of educational transformation guided by the National Education Policy 2020, the Bachelor of Arts in Economics (B.A. Hons with Research Degree Programme) curriculum stands as a testament to our collective vision of a more equitable, inclusive, and enlightened society. It is our hope that through rigorous academics, innovative pedagogy, and unwavering dedication to excellence, we can inspire the next generation of Economist, scholars, and change-makers to realize their full potential and contribute meaningfully to the advancement of knowledge of economics and the betterment of humanity.

15	RP (Research Project)				
					22
Exit Option : Award of UG Certificate in 3 Majors with 44 credits and an additional 4 credits of core NSQF course / Internship OR continue with Major and Minor					
*AEC-2 and AEC-4: Additional English/Hindi/Marathi/Pali & Buddhism/ Sanskrit/Urdu					

Students will have to choose any three subjects as a **Major 1, Major 2, Major 3**, from Basket 1 under the respective faculty.

Students will be having three subject options of equal credits (instead of Major and / or minor verticals) in the first year. Students will have to select / declare choice of one subject as a **major subject** in the beginning of second year **out of three major options M1, M2 and M3 (which were opted in the first year).**

Courses to be designed for the students from other faculty

1) Generic /Open Elective Courses for other faculty

GE/OE-1 : This is a 2 credit theory course to be designed for other faculty

GE/OE-2 : This is a 2 credit theory course to be designed for other faculty

Detailed Illustration of Courses included in 1st and 2nd semester:

1) Major 1 (Core) subject are mandatory.

DSC-1 : This is a 4 credit theory course OR 2 credit theory and 2 credit practical course corresponding to Major 1 (core) subject

2) Major 2 (Core) subject are mandatory.

DSC-2: This is a 4 credit theory course OR 2 credit theory and 2 credit practical course corresponding to Major 2 (core) subject

3) Major 3 (Core) subject are mandatory.

DSC-3: This is a 4 credit theory course OR 2 credit theory and 2 credit practical course corresponding to Major 3 (core) subject

4) Generic / Open Elective (GE/OE): (Needs to be chosen (any one) from pool of courses available at respective college). **These courses should be chosen compulsorily from faculty other than that of Major.**

GE/OE -1 : This is a 2 credit theory course, should be chosen compulsorily from faculty other than that of Major.

GE/OE -2 : This is a 2 credit theory course, should be chosen compulsorily from faculty other than that of Major.

5) SEC (Skill Enhancement Courses) : Choose any one from pool of courses. These courses needs to be designed to enhance the technical skills of the students in specific area.

SEC-1 : This is a 2 credit theory / practical course to enhance the technical skills of the students in specific area.

- 6) **VSC (Vocational Skill Courses)** : Choose any one from pool of courses. These courses should be based on Hands on Training corresponding to Major (core) subject.

VSC-1 : This is a 2 credit theory / practical course based Hands on Training corresponding to Major (core) subject.

- 7) **AEC (Ability Enhancement courses)**: The focus of these courses should be based on linguistic and communication skills. It will be common for all the faculty.

AEC-1 : English

This is a 2 credit theory course based on linguistic proficiency. It will be common for all the faculty.

AEC-2 : Modern English language MIL-1(Hindi/Marathi/Pali and Buddhism/Sanskrit/Urdu)

This is a 2 credit theory course based on linguistic proficiency. Student will have to choose one of the above mentioned languages.

- 8) **IKS (Indian Knowledge System)** : The courses related to traditional and ancient culture of India will be included in this section. The respective college will have to choose one of the courses from the pool of courses designed by the University.

IKS-1 : To be chosen from the pool of courses designed by the University

This is a 2 credit theory course based on Indian Knowledge System. It will be common for all the faculty

- 9) **VEC (Value Education Courses)**: The courses such as understanding India, Environmental Science / Education, Digital and Technological solutions etc will be part of Value Education Courses. It will be common for all the faculty.

VEC-1 : Constitution of India

This is a 2 credit theory course based on value education. It will be common for all the faculty

- 10) **CC (Curricular Courses)**: The courses such as Health and wellness, Yoga education, Sports and Fitness, Cultural activities, NSS/NCC, Performing Arts. In the first semester it will be Health and wellness and will be common for all the faculty.

CC-1 : Health and Wellness

This is a 2 credit practical course based on Co-curricular activities. It will be common for all the faculty

CC-2 : Yoga education / Sports and Fitness

This is a 2 credit practical course based on Co-curricular activities. It will be common for all the faculty

B. A. Programme Educational Objectives (PEOs):

- 1) To develop a synthesise information related to various economic, social and environmental development.
- 2) To prepare the students to take-up master degree, research programme and make students ready for higher education.
- 3) To develop logical thinking on matters of general economic interest and impart the knowledge on recent trends in Economics.
- 4) To develop a spirit of excellence in academics and the attitude of applying their education for improving the national building activities.
- 5) To develop nurture entrepreneurial bent of mind, leadership and organizational skills and ability to coordinate and work in teams, while developing a sense of social responsibility and multicultural understanding.

B. A. Programme Outcomes (POs):

Upon completion of this programme, a student will be able to analyse government policies. Knowing how an economy functions, and how decisions are made by consumers, producers, and regulators, the student will have the necessary skills to identify, analyse, and solve problems in a logical and efficient way.

PO1: The students will get trained to collect primary data and presentation skills.

PO2: The program also empowers the graduates to understand various competitive examinations or choose the post graduate programme of their choice.

PO3: The students will get knowledge with human values framing the base to deal with various problems in life with courage and humanity.

PO4: The students will get an understanding of basic economic theory.

PO5: The students will get an introduction to economic issues and problems facing the country.

Programme Specific Outcomes for B. A. Economics:

After completion of the B. A. Economics programme, the students should be able to:

PSO1: Students will be able to explain the basic and core terms, concepts and theories in Economics.

PSO2: Students will be able to Use the acquired knowledge and skills in taking up higher studies.

PSO3: Students will able to apply economic reasoning to solve the problems of the economy.

PSO4: Students will able to evaluate substantive knowledge of core areas in Economics and the ability to think critically about them.

PSO5: Students will able to analyze history of the discipline of Economics.

General Guidelines for Course Selection:

- 1) The Major subject is the discipline or course of main focus, bachelor's degree shall be awarded in that discipline / subject.
- 2) Students will have to choose any three subjects as a Major 1, Major 2, Major 3, from **Basket 1** under the respective faculty (based on the available options in the respective college).
- 3) Students will be having three subject options of equal credits (instead of Major and / or minor verticals) in the first year.
- 4) In the beginning of second year, students will have to select / declare choice of **one major subject** and **one minor subject** from three major options M1, M2 and M3 (which were opted in the first year)
- 5) Once the students finalize their **Major Subject** and **Minor Subject** in the beginning of the second year of the programme, they shall pursue their further education in that particular subject as their **Major and Minor** subjects. Therefore, from second year onwards curriculum of the Major and Minor subjects shall be different.
- 6) Students are required to select **Minor subject** from **other discipline of the same faculty**.
- 7) Students are required to select **Generic /Open Elective** (vertical 3 in the credit framework) **compulsorily from the faculty different than that of their Major / Minor subjects**.
- 8) Vocational Skill Courses and Skill Enhancement Courses (**VSC and SEC**) shall be related to the Major subject
- 9) Curriculum of Ability Enhancement Courses (AEC), Value Education Courses (VEC), Indian Knowledge System (IKS), and Co-curricular Courses (CC) will be provided by the University separately.

Syllabus Contents of the Course / Paper:

SEMISTER-I

DSC-1 : (Title of Paper) Micro Economics

Total Credits: 04 (2-T+2-P)

Total Contact Hours: Theory 30 Hours, Practical 60 Hours

Maximum Marks: 50 Theory + 50 Practical = 100

Learning Objectives of the Course:

- i) Introduce the basic principles of Micro Economics to students..
- ii) To analyze and interpret charts, graphs and figures.
- iii) To develop an understanding the basic theories of micro economics and their application.
- iv) To demonstrate the theories discussed in class will usually be applied related to real life situations.
- v) To enable students to understand how optimum real life decisions are taken by individuals under situations of scarcity.

Module No.	Topics / actual contents of the syllabus	Contact Hours
Theory		
I	Introduction 1.1 Meaning, Nature, Scope, Significance and Limitations of Micro Economics. 1.2 Difference between Micro Economics and Macro Economics. 1.3 Welfare Economics: Definition and Nature of Welfare Economics, The Concept of New Welfare Economics. Pigovian Welfare Economics.	10 Hrs
II	Theory of Demand and Supply 2.1 Concept of Demand, Law of Demand. 2.2 Elasticity of Demand – Price, Income and Cross and it’s measurement. 2.3 Concept of Supply, Law of Supply 2.4 Elasticity of Supply.	10 Hrs
III	Consumers Behavior 3.1 Meaning of Utility. 3.2 Marshallian Approach: Theory of Diminishing Marginal Utility, Equi-marginal Utility, Consumer’s Surplus. 3.3 Hick’s Approach: Indifference Curve – Properties of Indifference Curve. 3.4 Consumer’s equilibrium with the help of Indifference Curve, Price Effect, Income Effect and Substitution Effect 3.5 Samuelson Approach: Revealed Preference Theory.	10 Hrs
Practical		
I	Practical for students 1.1 Students should conduct a Survey on a topic based on the syllabus. 1.2 For that, students should prepare a schedule or questionnaire. 1.3 The Teacher should guide to students for the preparation of schedule. 1.4 A student should fill out at least ten Schedules/questionnaires on one topic. 1.5 The Data/Information collected based on schedule or questionnaire should be tabulated. 1.6 The students should draw conclusions based on data.	60 Hrs

	<p>1.7 The student should present the findings of the topic in the classroom in the presence of the teacher.</p> <p style="text-align: center;">Examples Topic</p> <p>Some examples of subjects for scheduled or questionnaires are given below:</p> <p>A) Study and analyse the elasticity of demand. Or</p> <p>B) Study and analyse the elasticity of supply. Or</p> <p>C) The number of different goods purchased by consumers at different prices. Or</p> <p>D) Collect the data regarding sales made by sellers or producers (shopkeepers/farmers) at different prices. Or</p> <p>E) The effect of a price increase or decrease on the consumption of particular goods. Or</p> <p>F) Effect of a change in consumer's income on the consumption of goods. Or</p> <p>G) Consumption patterns of different income groups. Or</p> <p>H) Study of household income. Or</p> <p>I) The study of a public welfare scheme being implemented by the Government of India. Etc..</p> <p>(Students should collect Data/Information about their own family or neighbouring families)</p>	
	<p>Course Outcomes (COs) :</p> <p>After completion of the course, students will be able to -</p> <p>i) Students will be able to analyze about meaning, nature, scope, significance and limitations of micro economics.</p> <p>ii) Students will be able to analyze demand and supply analysis.</p> <p>iii) Students will be able to understand the consumer behavior.</p> <p>iv) Students will be able to develop strong conceptual knowledge of the subject.</p> <p>v) Students will be able to examine welfare economics</p>

SEMISTER-II

DSC-4 : (Title of Paper) Price Theory

Total Credits :04 (2-T+2-P) Total Contact Hours: Theory 30 Hours, Practical 60 Hours

Maximum Marks: 50 Theory + 50 Practical = 100

Learning Objectives of the Course :

- i) To enable students to understand how optimum real life decisions are taken by firms under situations of scarcity.
- ii) To introduce basic concepts of price theory.
- iii) To create awareness about different types of markets.
- iv) To state and explain meaning of different costs.
- v) To understand internal and external economies & diseconomies.

Module No.	Topics / actual contents of the syllabus	Contact Hours
	Theory	
I	Theory of Production 1.1 Meaning of production. Concept of Production Function, 1.2 The Law of Variable Proportions, 1.3 Internal and External Economies & Diseconomies. 1.4 Iso-Quant Curve, Properties of Iso-Quant Curves. 1.5 IsoQuant Line, Production Possibility Curve.	10 Hrs
II	Analysis of Costs and Revenue 2.1 Concepts of Costs- Fixed and Variable Costs, Real Cost and Economic Cost, Opportunity Cost, Average and Marginal Cost. 2.2 Short Run and Long Run Cost Curves. 2.3 Relation between Marginal Cost, Average Cost and Total Cost. 2.4 Revenue Concepts: Total Revenue, Average & Marginal Revenue.	10 Hrs
III	Market 3.1 Perfect Competition: Concept - Characteristics . 3.2 Monopoly- Concept, Characteristics, Price Discrimination. 3.3 Monopolistic Competition: Concept, Characteristics, Selling Cost. 3.4 Oligopoly – Concept, Characteristics. 3.5 Duopoly: - Concept, Characteristics.	10 Hrs
	Practical	
I	Practical for students 1.1 Students should conduct a survey on a topic based on the syllabus. 1.2 For that, students should prepare a schedule or questionnaire. 1.3 The Teacher should guide the students for the preparation of the schedule. 1.4 A student should fill out at least ten Schedules/questionnaires on one topic.	60 Hrs

	<p>1.5 The Data/Information collected based on schedule or questionnaire should be tabulated.</p> <p>1.6 The students should draw conclusions based on data.</p> <p>1.7 The student should present the findings of the topic in the classroom in the presence of the teacher.</p> <p style="text-align: center;">Examples Topic</p> <p style="text-align: center;">Some examples of subjects for scheduled or questionnaires are given below:</p> <p>A) Students should conduct a survey on cost of production.</p> <p>1. Students from urban areas should collect information about the various expenses incurred in an industry (cottage or small-scale industry) and its production through a schedule.</p> <p>2. The students of rural areas should collect the production cost and production information of the major crop in that area through the schedule. The cost of production of the crop includes the cultivation costs of the farm, Seed cost, planting cost, Data should be collected about the costs of internal cultivation, harvesting costs and transportation costs etc. Also, the students should collect the data about the production and production cost and calculate the net profit.</p> <p style="text-align: center;">Or</p> <p>B) Students should collect the information of the industry around them and calculate the effect of the change in the production factor on the production based on the statistics.</p> <p style="text-align: center;">Or</p> <p>C) Students should collect information about the market in their area based on observation/questionnaire/interview and write an article on that market.</p> <p style="text-align: center;">Or</p> <p>D) Students should collect information about the Farmer Producer Company in their area based on observation/questionnaire/interview and write an article on that Farmer Producer Company.</p> <p style="text-align: center;">Or</p> <p>E) Students should conduct a survey on Production, Income and cost of local Industrial organization.</p> <p style="text-align: center;">Or</p> <p>F) Students should collect Data/Information regarding is village/town Economy. Etc..</p>	
	<p>Course Outcomes (COs) : After completion of the course, students will be able to -</p> <ul style="list-style-type: none"> i) Students will be able to analyze theory of production. ii) Students will be able to compare costs and revenue. iii) Students will be able to examine market. iv) Students will be able to describe various concepts in production and costs. v) Students will be able to analyze selling cost.

SEMISTER-II

VSC-1 : (Title of Paper) Modern Banking Techniques

Total Credits : 02

Total Contact Hours : Theory 30 Hrs

Maximum Marks : 50

Learning Objectives of the Course:

- i) To create awareness about modern banking techniques.
- ii) To understand E - Banking.
- iii) The approach of this paper is to study of cyber security.
- iv) To develop practical skills.
- v) To aware about fraud.

Module No.	Topics / actual contents of the syllabus	Contact Hours
I	New Technology in Banking 1.1 Need and Importance of Technology in Banking 1.2 E- Banking, ATM, Credit Card, Debit card, Tele Banking, Mobile banking 1.3 Net Banking, NEFT, RTGS, Core Banking	10 Hrs
II	Cyber Security 2.1 Information Security, Hackers, Techniques used by the Hackers. 2.2 Card related fraud, Site cloning, False merchant site.	10 Hrs
III	Security Measures 3.1 Biometric Authentication definition & benefits, Type of Biometric Authentication- Fingerprint Scanners, Facial Recognition. Voice Recognition, Eye Scanners 3.2 Password Protection, Strong Password Practices, Two-Factor Authentication	10 Hrs
	Course Outcomes (COs) : After completion of the course, students will be able to - <ul style="list-style-type: none"> i) Students will be able to describe the need and importance of technology in banking. ii) Students will be able to understand E- Banking and Digital Payments. iii) Students will be able to examine cyber security. iv) Students will be able to understand security measures. v) Students will be able to practical skills.
